1-)

The welcoming/first activity that will be appeared after the app icon clicked by the user. The main purpose of this activity is to give a warm welcome to users. This activity will last long 2 or 3 seconds.

2-)

This is the login activity of the application. This page have project name, image, username and password box, remember me box, sign-in button, and by "Create one" register section. In this page user can do the followings;

- Open the account by entering their username and password.
- To avoid wasting time and to enter faster, they can click to "Remember me." box.
- If user does not have an account, user can click to "Create one." section.

3-)

Frame

If user does not have an account, of course they have to create one. So, this activity created in order to create an account. We have 4 boxes and 1 button to confirm informations.

- Username box (It will be compared to other users' usernames)
- E-mail box (?)
- Password and PasswordAgain boxes. These two will be compared to each other. If there is an inequality, there will be a warning to user that says your password doesn't match. So, user will enter passwords - again-, carefully.

P.S: In the previous activity, if you click to "Create one." you will be lead to this activity.

4-)

This activity has the blogs. By other name, home page.

1. Titles and paragraphs of blogs.
2. Like button. When you click to like button, total like will increase.
3. Author and date information will be showed below the text of the blogs.
4. And at the belowest part of the secreen (footer part) there are 5 icons.
  - 4.1. Home Icon:
  - 4.2. Profile Icon: To show some information –we will explain after this activity.
  - 4.3. Create Post Icon: If you want to create a post, you have to click to this
  - 4.4. Edit Profile Icon: To edit some informations
  - 4.5. Log-out Icon: To log-out from account.

5-)

The image shows a mobile application interface for a user profile. At the top, there is a purple header with the word "PROFILE" in white. Below the header, on the left, is a circular profile picture placeholder with a checkmark icon. To the right of the profile picture is a text input field labeled "Username". Below these are several text input fields, each with a placeholder label: "Name", "Surname", "BirthDay", "Education", "Email", "Gender", and "PhoneNo". At the bottom of the screen, there is a navigation bar with five icons: a home icon, a person icon, a plus icon, a profile icon, and a share icon.

Profile activity. This activity shows;

- Profile picture
- Username
- Name
- Surname
- Birthday
- Education situation (It's up to user)
- Email
- Gender (It's up to user)
- Phone number
- And the 5 icons we explained previously.

6-)

The image shows a mobile application interface for editing a user profile. At the top, there is a purple header with the word "EDIT PROFILE" in white. Below the header, on the left, is a circular profile picture placeholder with a checkmark icon. To the right of the profile picture is a text input field labeled "Username". Below these are several text input fields, each with a placeholder label: "Name", "Surname", "BirthDay", "Education", "Email", "Gender", and "PhoneNo". At the bottom of the screen, there is a purple button labeled "Save Changes". At the very bottom, there is a navigation bar with five icons: a home icon, a person icon, a plus icon, a profile icon, and a share icon.

In life, informations can change. So this Edit Profile Activity created for this reason. Allows users to change their information. It contains same things with profile activity. But there is just one extra thing and that is "Save Changes" button. It saves the informations when clicked.

7-)

Frame

CREATE BLOG

Please enter your title...

Please enter your thoughts..

Writer: Date

Add Blog

Home, Profile, Add, Edit, Post icons

Create Post Activity. Without this activity, we couldn't talk about this application. Users can write their thoughts, they can add their post to our database by clicking "Add Blog" button, and they can show their posts and blogs to other users. It contains;

- Title TextBox: User writes the title of post.
- Paragraph TextBox: User writes their thoughts.
- Writer Box
- Date Box
- Add Blog Button: To add to app's database in order to show in app.
- And 5 icons.
